

Abbreviated CV

ANDREA BECCHETTI.

1988. Laurea in Biology. University of Milan.

1989. Training in Physiology and Pathology. University of Milan.

1990-1992. Research fellowship from AIRC. University of Florence (Institute of General Pathology).

1993-1994. Post-doctoral fellow. Emory University School of Medicine, Atlanta, USA (Dept. of Physiology).

1995-1996. Post-doctoral fellow. University of Newcastle upon Tyne, UK (Dept. of Physiological Sciences).

1997-1999. Research Fellow. International School of Advanced Studies (ISAS-SISSA) of Trieste (Biophysics Sector).

2000. Assistant Professor of Physiology. University of Milano-Bicocca.

2004. Member of the Faculty of the PhD School in Molecular and Translational Medicine.

2004-2006. Director of the *Italian Telethon Research Service – Functional Test of Ion Channels*

2005. Associate Professor of Physiology.

2006-2008. National coordinator of the MIUR project “Cerebral nicotinic receptors and epileptic pathologies”

2008-2009. Member of the Editorial Board of the *Journal of Ion Channels*.

2012. Guest Associate Editor for *Frontiers in Physiology*

2014. Habilitation to full professorship

Editorial Board of *PeerJ*

2015. *Beh. Brain Sci.* (BBS) Associate

Andrea Becchetti teaches General Physiology and Neuroscience at Milano-Bicocca. He has served as ad hoc reviewer for many international scientific journals, and for scientific institutions and foundations such as the Alzheimer’s Society (UK), Epilepsy Research (UK), Danish council for Independent research, Italian Ministry for University and Scientific Research (MIUR). His research has been recently funded by the Italian Telethon Foundation and the Ministry for University and Scientific Research.
